

Dear Parents, Below is a suggested list of school supplies, by grade level, that are recommended for your child's use. Please understand that this is unfamiliar territory for us to request donations of what was once considered regular school supplies. Due to the devastation of California's financial instability and the inconceivable way that it has and will continue to effect education, out of necessity, our site budget has pretty much restricted us to "P, P and TP!" (paper, pencils and toilet paper!) Thank you for continuing to be such stellar supporters of your child's education.
